Organization Mission: Cancer Support Team is a nonprofit home-care program licensed by the New York State Department of Health (NYSDOH), that provides professional nursing education and support, counseling, case management, and other cancer-related services to patients and family members living in southern Westchester County. Our mission is to enhance the quality of life of patients and families affected by cancer. By providing supportive services to oncology patients and their families, we aim to reduce healthcare disparities and increase access to essential health care services. CST is the only Westchester-based home-care program that is solely focused on cancer and provides in-home services to those with cancer and their family members at any stage of the disease, at no cost, and without regard to insurance coverage.

Program Interests: Cancer affects individuals in many ways -- physically, emotionally, financially. The use of art to help patients explain how they feel, see themselves and cope could enhance the healing experience. We would like to pair an artist with one (or more) patients who will share their feelings and work with an artist to express that visually.

EngageAsia

Contact: Chisato Sakamoto, chisato@engageasia.org

Organization Mission: In the United States, too few classrooms teach robustly about Asia's numerous cultures, societies, and histories despite the fact that Asia is one of the most vibrant regions of the world and vital to America's future. Within Asia, numerous societies are engaged in disputes over war trauma and memory, over territory, and over their futures. Furthermore, between America and Asia, the opportunities for teachers from both regions to work together remains limited. EngageAsia's programs aim to directly tackle these issues by providing training for American teachers to teach about various societies in Asia, through helping teachers in Asia learn about the United States, and by developing transnational networks of educators throughout the Pacific Rim that can form bonds of trust helping students cultivate empathy for the lives and cultures of others. EngageAsia also works to deepen knowledge of Asia for the public and helps communities, corporations, and institutions in the U.S. and Asia build lasting ties.

Program Interests: In line with our mission, we would like to partner with artists who are interested in promoting cultural awareness around Asia or build ties between the Mid-Hudson Valley region and AAPI communities. Potential project ideas include a public art project where artists, K-12 educators, and students will create a piece that addresses AAPI hate or a workshop where artists will work with K-12 teachers to develop a program or activity to enhance students' interest in Asia.
